Krzysztof Wójtowicz
Computer Science Student

A motivated student eager to grow and work with new technologies. The persistence and discipline developed through running are reflected in a focused approach to IT projects, striving for creative and efficient solutions. Always ready to take on new challenges.

Experience

Internship, Cyfrowe Centrum Serwisowe   May 2023 - Aug 2023
Piaseczno

- Co-developed an application that streamlined the inventory process for service parts, replacing three separate services with one and significantly improving efficiency.
- Participated in designing a new website interface.
- Technologies: React.js, JavaScript, Python, Flask, Docker, SQL Server.

Education

Bachelor of Engineering - Computer Science and   Oct 2024 - Present
Information Systems, Warsaw University of Technology
Faculty of Mathematics and Information Science

- Active member and contributor to the Faculty Student Council, delegate to the Finance and Economic Committee

High School Diploma and IT Technician Diploma,   Sep 2019 - May 2024
1st Mechatronics Technical High School
Warsaw

- 06.2022 - Qualification INF.02 – 94% - CKE, Administration and Maintenance of Computer Systems, Peripheral Devices, and Local Computer Networks
- 06.2023 - Qualification INF.03 – 96% - CKE, Creating and Managing Websites, Web Applications, and Databases

Projects

Mapple - Social media platform for orienteering enthusiasts
krzysztofwojtowicz.com/#projects

- Designed and developed a full-stack web app where users can share orienteering maps and tracks.
- Implemented image storage using Cloudinary and MongoDB.
- Built a REST API with Express.js and Node.js to handle user data and content.
- Technologies: React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary

Drone Cone - Official website for a drone photography service
krzysztofwojtowicz.com/#projects

- Developed a fast and visually engaging business website.
- Used Framer Motion for smooth animations and enhanced UI/UX.
- Implemented email notifications with Resend API.
- Technologies: Next.js, Tailwind CSS, Framer Motion, Resend API
